

Purple Comet!

MATH MEET

**FREE ONLINE
team math competition**

**Tuesday, April 10, through
Thursday, April 19, 2018 (UTC)**

Take part in a growing INTERNATIONAL mathematics competition for middle and high school students. Schools may form as many teams as they want.

We have an all new website which will allow supervisors to read contest rules, register teams, run practice contests, see old contests, and get a list of all registered teams as well as run the 2018 contest, see contest results, and download certificates for all team members.

Better prepare for this contest by purchasing Purple Comet! Math Meet: the first ten years written by Dr. Titu Andreescu and Dr. Jonathan Kane at:
